## Medico-legal experience summary

I have been undertaking medico-legal work for approximately 17 years. Instructions relate to personal injury, clinical negligence and employment tribunal work. 70% claimant, 20% defendant and 10% single joint. I write about 40 reports each year. I have experience of giving oral evidence in court and conference with counsel. I have co-written numerous joint statements.

Cases relate to;

- Asbestos disorders including malignant mesothelioma
- Occupational asthma
- RADS/toxic inhalation injury
- Tuberculosis
- Pulmonary embolism
- Community acquired pneumonia
- Lung cancer
- Drug induced lung disease
- Chest trauma (RTA)
- other respiratory conditions.

I maintain specific medico-legal CPD and have completed the Bond Solon/Cardiff University expert witness training programme.

I am registered with the Information Commissioner's Office (registration number – Z3483504)

I can usually see cases within one month after receipt of instructions/notes and x rays. Reports are returned within approximately one month thereafter.

Appointments are mainly at Hemel Hempstead Hospital or Harefield Hospital. I can also see patients from Hampshire at Spire Portsmouth Hospital, Havant.

Address for all medico-legal correspondence;
